PROFILE

Detail-oriented Full Stack Developer and Machine Learning Expert with over [1] years of experience in developing scalable web applications and implementing machine learning algorithms. Proficient in both frontend and backend technologies, with a strong foundation in data science and software engineering principles. Proven ability to deliver high-quality software solutions while collaborating with cross-functional teams.

INTERNSHIP EXPERIENCE

company web tech ▪ lucknow ▪ india

course Full stack developer,mearn developer

time 07/2024 - 02/2025

- - Collaborated with the development team to create dynamic web applications using the MERN stack, focusing on React and Vite for rapid development.
- - Assisted in designing and implementing responsive user interfaces with React, ensuring a seamless experience across multiple devices.
- - Developed backend services using Node.js and Express, creating RESTful APIs for efficient data handling and communication between the frontend and backend.
- - Leveraged MongoDB for database management, executing CRUD operations and optimizing database queries for performance.
- - Utilized Vite's fast bundling and hot module replacement to enhance the development workflow, reducing build times and improving productivity.
- - Participated in code reviews and debugging sessions, gaining feedback from senior developers and improving code quality.
- - Engaged in Agile methodologies, contributing to sprint planning and daily stand-ups to ensure alignment with project goals.
- - Documented development processes and maintained project documentation, facilitating better communication and knowledge sharing within the team.
